

The Wa Yao Wholesale Market is made up of several 6 storey buildings. Wa Yao is where individual shoppers and buyers from other shops go for their needs. This market sells everything from clothing and house wares, to antiques and art. The Wa Yao Tour Products Shopping District is organized into categorized sections, so finding things is fairly easy. As it is mainly a wholesale market, you can get lower prices in here than the normal retailing prices. Be aware, if you are looking for high quality brands, this is not the right place to go. But this is an excellent place to collect local crafts.
